## Objective

Define your legacy. Understand that legacy isn't reserved for the "successful"—it belongs to anyone willing to break cycles and build something that lasts.

## Overview

This module breaks the "us vs. them" narrative. Legacy building is universal. You're already building it—now you name it, map it, and commit to it.

- Legacy word association and inventory (what you're already building)
  - Community Over Labels (Chetty's social capital research)
  - Purpose Statement Workshop with micro-activity (who are you responsible to?)
  - Legacy Mapping with ripples diagram (3-generation impact)
  - Legacy Claim Ceremony
  - Tribe Commitment Card (**REQUIRED:** 6-month role)
  - Legacy Transfer to Playbook
  - Passing the Torch ceremony
