What's Next: Module 2

Module 2: Builder Identity Work

Now that you know how your engine runs, it's time to build an identity that fits the machine.

In Module 2, you'll:

- Replace shame words with builder words
- Rewrite shame scripts into builder scripts
- Co-create your cohort's Builder's Code
- Design your Identity MVP (Version 1.0)
- Create builder affirmations based on your wiring
- Practice builder language enforcement as a tribe

Preview question:

"What would change if you stopped forcing yourself into an identity that breaks you?"

Tribe Role Evolution

- **Module 1:** Silent Witnesses
- **Module 1.5:** Normalizers (Type Clustering)
- **Module 2:** Culture Holders & Language Enforcers

Your tribe is evolving from witnessing to actively protecting builder identity.
